# The Environmental Capital:

Innovative Learning Book with Myson of Chenae,  
Ingo Munz and [www.wir-aak20.de](http://www.wir-aak20.de)

**The Environmental Capital: Innovative Learning Book with Myson of Chenae, Ingo Munz and [www.wir-aak20.de](http://www.wir-aak20.de)** is art at a turning point. A scope of interpretation for the new art of living together! Co-working, co-living, co-gardening. Cross-species cooperation is the rule.

**New maps of meaning** in a colourful world of bundles at the interface with language (articulation) and sociology. **This work of art** moves along the edges of space, time and cognition. In the book grows the bio-literature. In the tree, art grows. And in peace the tree blossoms.

**Roland Scheel-Rübsam**, European and social practitioner, makes **Innovative Abstract European Art** with a focus on painting, poetry and the sociology of art.
